"Oh, George, dear," she whispered, when he slipped the engagement ring on her finger, "how sweet of you to remember just the stone I preferred! None of the others were ever so thoughtful."

"It is well improved. Has good fencing, a good cottage of six rooms, one hall and three porches. Also good cellar, lasting cistern, good outbuildings, two lasting ponds, two lasting springs, two good stock barns, one good tenant house of four rooms and one porch. Also fruit of all kinds with a number one good grape arbor.

This farm lays well and can be cultivated. Twenty-eight acres to go in corn and tobacco in 1906. Twenty acres sowed in wheat with a good stand, and the remainder in grass.

None of the others were ever so thoughtful."

George was staggered for only a moment. Then he said: "Not at all dear; you over-rate me. This is the one I've always used." Then she had to cry.

No. 75, 150,000 acres of cotton land in Mississipp There is no section of country which offers so many opportunities for proftable investment as the Mississippi Delta which is now fitly described as "Prosperity Valley." The timber is becoming more valuable all the time for the reason that lumber people from the North (where the supply of timber is fast diminishing, are constantly increasing their purchases of timber lands in the South. When the timber is removed the land is unequaled for agricultural purposes. It will produce a bale of cotton to the acre or will grow any other kind of crop ralsed in the temperate zone. The soil needs no fertilizers and gives a yield which cannot be excelled, taxes are low, the title is perfect and the man who buys Delta farm and timber lands at present prices is making an investment that he will never regret. This land is divided into tracts ranging from 40 acres to the tract to 17,000 acres to the tract and prices from \$8 per acre to \$16 per acre, according to location, etc. We are authorized by the company who owns these lands to state that as other parties are considering the purchase of these lands that we offer these tracts subject to prior sale, withdrawal from market or change is watered with never-failing springs and a running branch through the place.
